Re: WFNR AM, LLC (WAL)
WFNR(AM), Blacksburg, VA
Facility Identification Number: 67588
Special Temporary Authority
BESTA-20210908AAA

Dear Mr. Reed:

This is in reference to the request filed on September 8, 2021. WAL requests a further extension of the STA granted on January 31, 2020, to continue operating from an alternate site with a long-wire antenna to allow time to file the required FCC Form 301 application.¹ In support of the request, WAL stated that additional time is needed to file the application to propose a new permanent facility.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is hereby GRANTED, and WAL may continue to operate with the following facilities:

Geographic coordinates	37° 08' 34" N, 80° 34' 38" W (NAD 1927)
Frequency	710 kHz
Hours of operation	Daytime only
Operating power	0.5 kW
Antenna type	405 foot long-wire antenna
Antenna Efficiency	203.2 mV/m/km

WAL must reduce power or cease operation if complaints of interference are received, and

¹WFNR(AM) is licensed for daytime-only DA operation on 710 kHz with 10 kW.

use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. WAL must submit an e-mail to my attention to note the date the application was filed.

This authority expires on **March 20, 2022.**

Sincerely,
