RE: Low Power Television Application Of:  
Western Kane County Special Service District #1  
Channel 23, Kanab, UT  
File number: BNPDTL-20090825BCI  
Facility Id No.: 182373

FCC Letter 1800E1-SEA  
(Predicted interference issue with K22HV-D and K23DP)

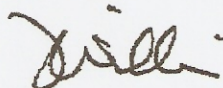

Dear Mr. Hashemzadeh:

Western Kane County Special Service District #1 is aware that your interference program shows the new proposed channel 23, BNPDTL-20090825BCI, interfering with K22HV-D, BLDTT-20081215AAI, Alton, UT and K23DP, BLTT-19930830IK, Kanab, UT.

Because of terrain shielding and other innovative methods, Western Kane County Special Service District #1 does not expect the new proposed channel 23 to cause interference to K22HV-D, Alton, UT and K23DP, Kanab, UT which are also licensed to Western Kane County Special Service district #1. If there is interference, Western Kane County will accept the interference and take the necessary steps to resolve any interference issues.

Western Kane County Special Service District #1 looks forward to the continued operation of K22HV-D, K23DP and also bringing the new proposed channel 23 to the Alton, UT area.

Respectfully,

Nyle Willis  
Treasurer  
Western Kane County Special Service District #1
