In re: KTKK(AM), Sandy, Utah
Facility Identification Number: 14890
United Broadcasting Company, Inc.
Special Temporary Authority

Dear Mr. Perry:

This is in reference to the request filed July 8, 2008, on behalf of United Broadcasting Company, Inc. ("UBC"). UBC requests further extension of the Special Temporary Authority ("STA") originally granted on April 10, 1997, for operation of Station KTKK¹ from the licensed site of Station KLLB, West Jordan, Utah. In support of the request, UBC states that it has located a new site and has filed major change Application BMJP-20041029AJK, and that its application remains pending.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

Accordingly, the request for STA IS HEREBY GRANTED. Station KTKK may operate with the

¹ Station KTKK is licensed for operation on 630 kHz with power of 1.0 kW daytime and 0.5 kW nighttime, employing different directional antenna patterns day and night (DA-2).

following facilities:

Geographic coordinates:	40° 33' 06" N, 111° 58' 17" W (NAD 1927)
Hours of operation:	Unlimited
Operating power:	Not to exceed 1 kW daytime, 0.051 kW nighttime
Antenna type:	licensed tower of Station KLLB, West Jordan, Utah

It will be necessary to reduce power or cease operation if complaints of interference are received. Appropriate measures shall be taken to protect the public and workers from the exposure to radiofrequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §§ 1.1307, 1.1310.

This authority expires on **November 26, 2009**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller", with a long horizontal flourish extending to the right.

Charles N. Miller, Engineer
