

W273CO-CP and W273CO-PROP 60 dBu Contour Overlap

FIGURE 2

As shown, the proposed W273CO 60dBu/1 mV/m service contour substantially overlaps the corresponding 60dBu service contour of the W273CO outstanding CP under BNPFT-20130829ACA. Hence, under the standards of Section 74.1233(a) of the Rules, this modification of construction permit is to be treated as a minor change.
