

Terrain Shielding

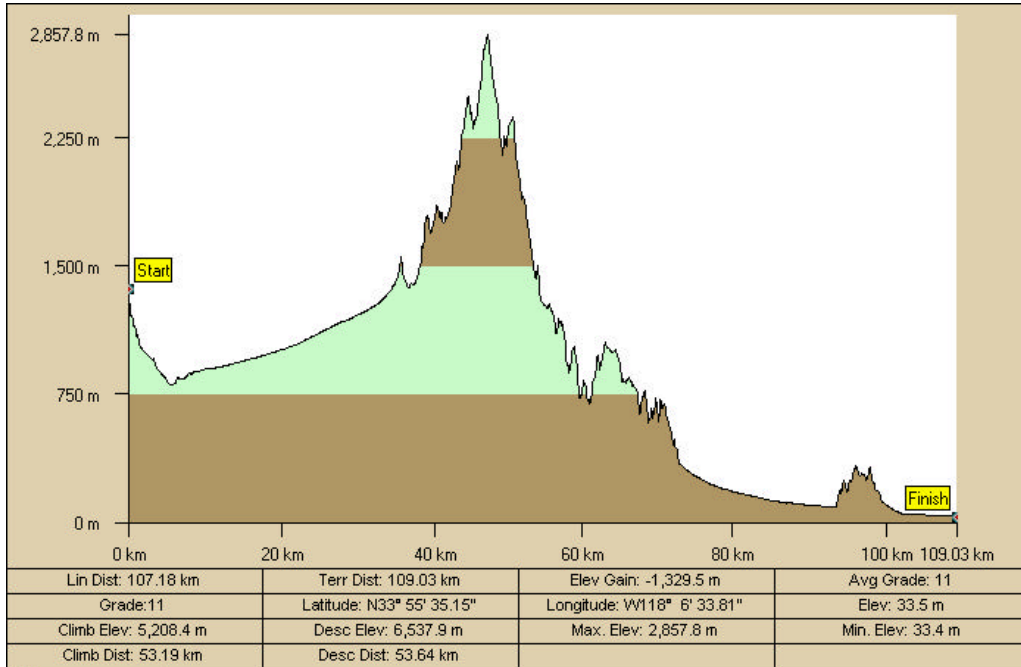

The May 1, 2000 announcement of the Auction 81 window stated there were geographic restrictions of 121 Km from certain markets.

However

The Commission will consider requests for waiver of the geographic restrictions based on terrain shielding. Attached is such a waiver showing terrain shielding from the Los Angeles market. Los Angeles is 107.2 Km away at a bearing of 235°.

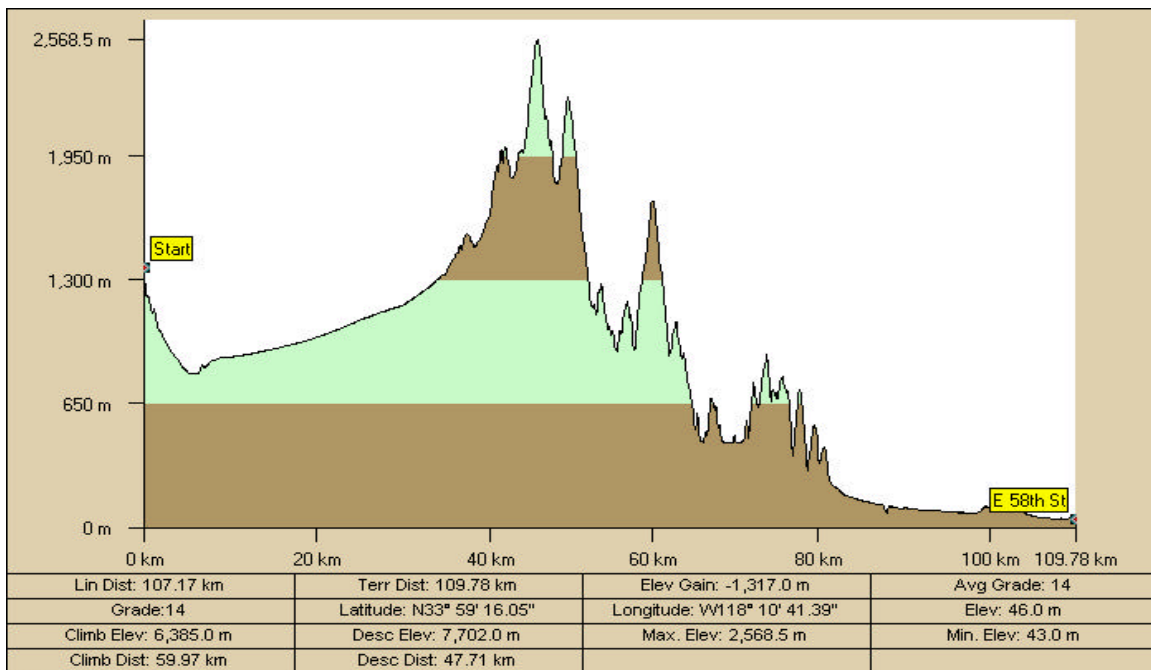

Please find attached profiles of 225°, 230°, 235°, 240° and 245° at a distance of 107.2 Km. The station RCAMSL is 1389m and all of the profiles shown mountains taller than that, therefore, the Los Angeles market would be terrain shielded and this application is grantable.
