

Multiple Ownership Exhibit
(Milwaukee)

By this application, Good Karma Brands Milwaukee, LLC (“GKB Milwaukee”) seeks to acquire the licenses of Station WTMJ(AM), Milwaukee, WI (Facility ID No. 74096) and Station WKTJ(FM), Milwaukee, WI (Facility ID No. 74095) from Scripps Broadcasting Holdings LLC (“Scripps”).

Good Karma Broadcasting, LLC (“GKB”), the sole member of GKB Milwaukee, is currently the licensee of Station WAUK(AM), Jackson, WI (FCC Facility ID No. 10824), which is licensed to a community in the Milwaukee, WI Nielsen Audio Market (the “Market”).

Section 73.3555(a)(1)(ii) of the Commission’s rules provides that in a radio market with between 30 and 44 full-power, commercial and noncommercial radio stations, a single entity may not have a cognizable interest in more than seven commercial radio stations in total and not more than four commercial stations in the same service (AM or FM). As shown on the BIA Kelsey Media Access Pro FCC Geographic Market Definition Report attached hereto, there are 43 full-power commercial and noncommercial radio stations in the Market. Therefore, common ownership of seven radio stations, no more than four in the same service, is permitted in the Market.

Following GKB Milwaukee’s acquisition of Stations WTMJ(AM) and WKTJ(FM), GKB and its affiliates will have an attributable interest in three commercial radio stations in the Market (two AM stations and one FM station), which is permitted under the local radio ownership rule.

GKB is also the licensee of the following stations which have common overlap with the principal community contour of Station WTMJ(AM):¹

Station	Community of License	Facility ID Number	Metro Market
WBEV(AM)	Beaver Dam, WI	4475	Outside of any Metro
WXRO(AM)	Beaver Dam, WI	4474	Outside of any Metro
WTTN(AM)	Columbus, WI	71092	Madison, WI Metro

In accordance with Commission requirements, a contour-based multiple ownership analysis was prepared for the above-listed stations and Station WTMJ(AM). As shown in the Technical Statement prepared by Louis R. duTreil, Jr. of duTreil, Lundin & Rackley, Inc. attached hereto, the principal community contour of WTMJ(AM) has common overlap with the principal

¹ GKB is also the licensee of Station WTLX(FM), Monona, WI (FCC Facility ID No. 4477); however, there is no overlap with Station WTMJ(AM) or WKTJ(FM).

community contours of Stations WBEV(AM), WXRO(AM) and WTTN(AM). There are two defined “radio markets” formed by the subject stations. Market 1 has a total of 116 stations, and Market 2 has a total of 93 stations. GKB’s common ownership of the five stations in these contour-based radio markets therefore is consistent with Section 73.3555(a)(1)(i) of the Commission’s rules which provides that in markets with over 45 full-power commercial and non-commercial stations, an entity may have an attributable interest in up to eight stations, no more than five in a service.

TECHNICAL STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS
MILWAUKEE, WISCONSIN

This radio multiple ownership analysis was prepared on behalf of Good Karma Broadcasting LLC, in support of its application for assignment of WTMJ(AM), Milwaukee, WI (620 kHz) and WKTJ-FM, Milwaukee, WI (Ch. 233B). This analysis was prepared under the FCC interim contour overlap method.* Considering all attributable radio stations in the area, the following stations were analyzed:†

Call Sign	City of License	Facilities
WAUK/AM	Jackson, WI	540 kHz, 0.4 kW, U, DA-2
WTMJ/AM	Milwaukee, WI	620 kHz, 10 kW-N, 50 kW-D, U, DA-2
WBEV/AM	Beaver Dam, WI	1430 kHz, 1 kW, U, DA-N
WTTN/AM	Columbus, WI	1580 kHz, 0.8 kW-N, 5 kW-D, U, DA-d
WKTJ/FM	Milwaukee, WI	Ch. 233B, 14 kW, 291 m
WXRO/FM	Beaver Dam, WI	Ch. 237A, 6 kW, 100 m

The principal community contours of all of these stations are depicted on a map included herein as Figure 1. The radio multiple ownership analysis considers only those stations with overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations). An ownership study was prepared in accordance with the Federal Communications Commission multiple ownership rules as outlined in Section 73.3555.

* See Report and Order and Notice of Proposed Rulemaking, MB Docket 02-277, FCC 03-127, Released July 2, 2003.

† It is noted that attributable station WTLX(FM), Monona, WI, Ch. 263A, does not trigger a multiple ownership market case; but this facility is shown herein for reference.

Radio Markets

The “radio market” applicable to common ownership of the subject stations is defined as the area encompassed by the mutually overlapping principal community contours of the stations proposed to be commonly owned. As listed in the table below, there are two defined “radio markets” formed by the subject stations:

Defined Radio Market	Stations that Define Radio Market	
	AM Stations	FM Stations
1	WAUK, WTMJ	WKTJ
2	WTMJ, WBEV, WTTN	WXRO

Count of Stations in Defined Markets

The number of radio stations in a “radio market” is determined by counting the operating stations that have principal community contours that intersect the principal community contours that define the radio market. Only those stations located within 92 km of the perimeter of the mutual overlap area of the defined market area were employed in the count of stations. Commonly owned stations, other than those that form the market in question were not considered in the count of stations in the defined market. The results of the analysis are tabulated below:

Defined Radio Market	Number of Stations in Radio Market
Market 1	41 AM; 75 FM; 116 Total
Market 2	35 AM; 58 FM; 93 Total

Tabulations of the radio stations identified in the defined radio markets are included with this statement. Only known licensed, operating stations were employed for

the study. Distances to the AM coverage contours were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph described in Section 73.184 of the FCC Rules. Ground conductivity data were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method outlined in Section 73.313 of the FCC Rules. Terrain data were derived from the N.G.D.C. 30-second computer database for each of the FM stations using radials evenly-spaced every 5 degrees of azimuth.

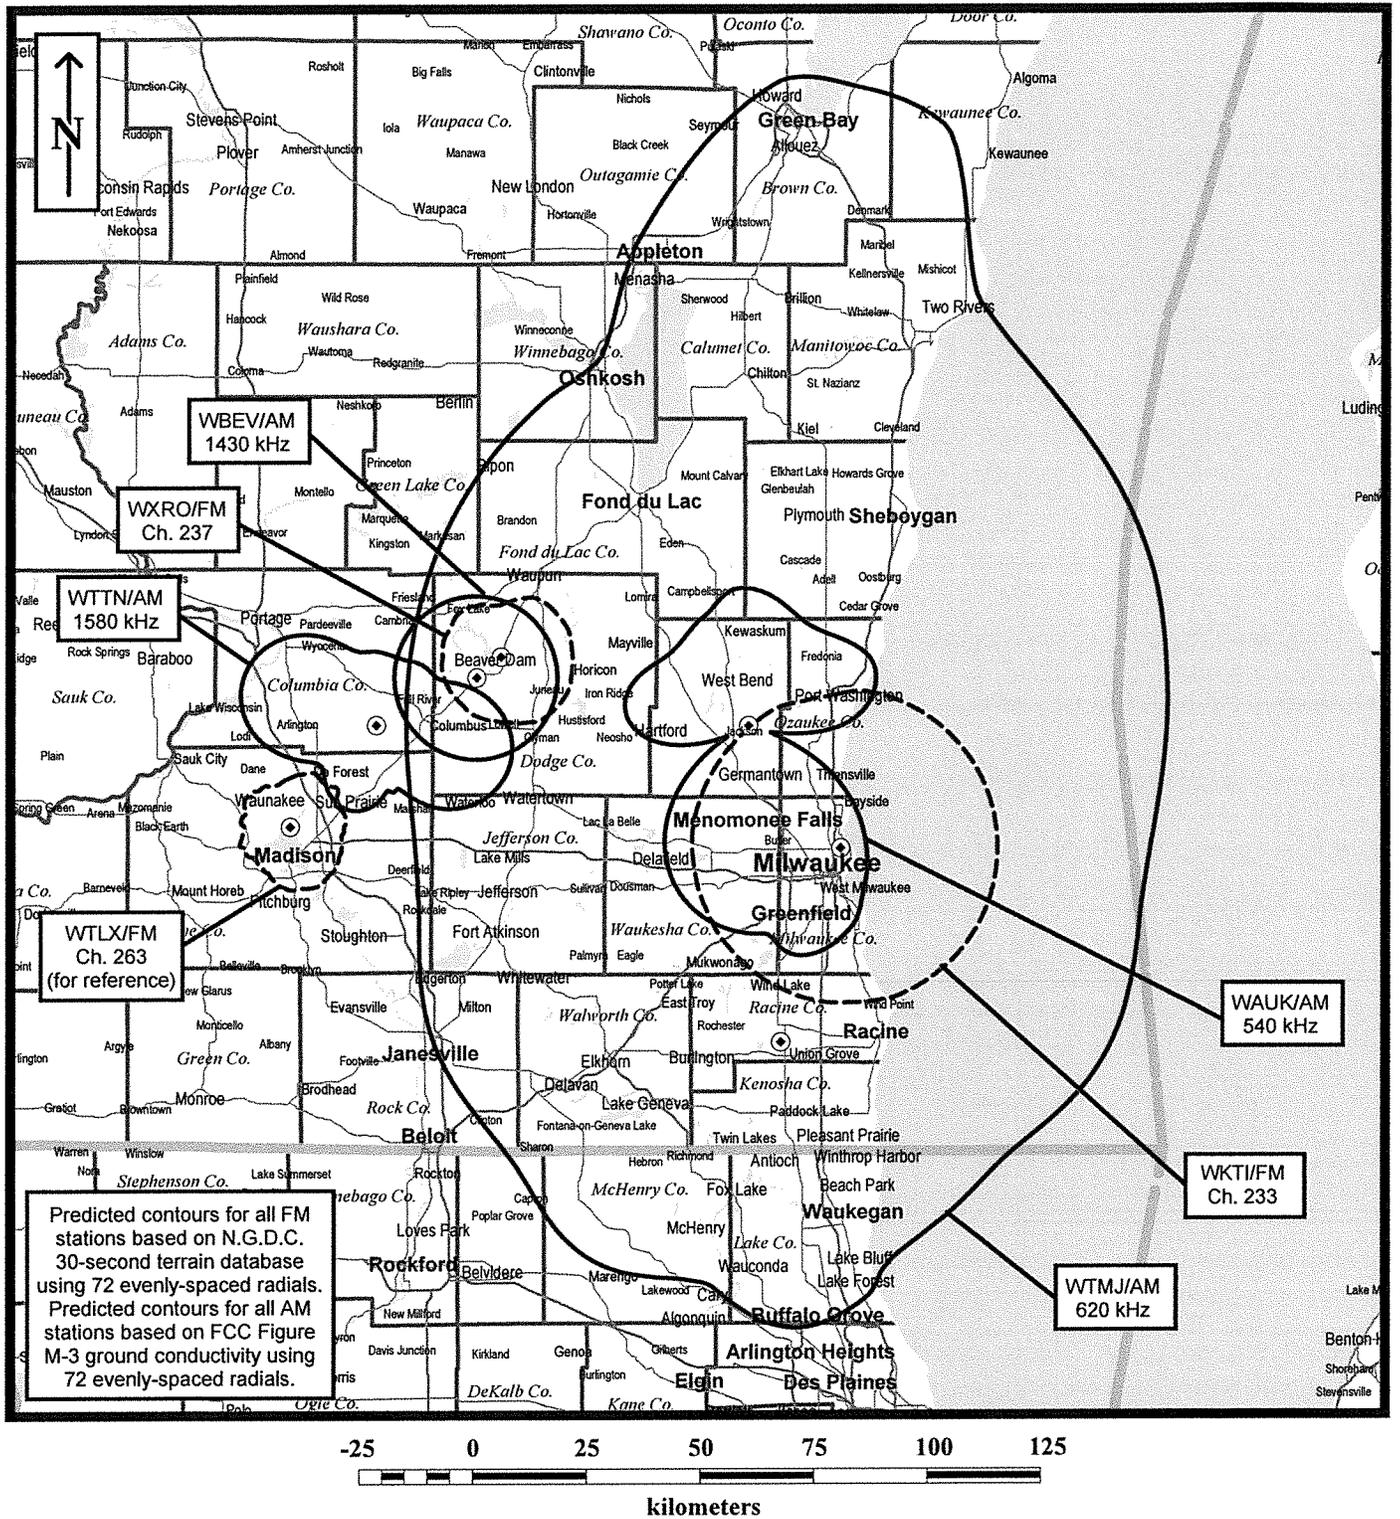

Based on the above, it is concluded that the proposed combination of the stations to be owned complies with Section 73.3555(a) of the FCC Rules.
