Dear Applicant:

The staff has under consideration the above-captioned minor modification application

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is located 28.2 kilometers from authorized translator W29CX (BMPFT-20160920ABZ) on channel 296D in Winder, GA.
