KXKL-FM – Denver, CO

Exhibit 30

Protection of Table Mountain Radio Receiving Zone, Boulder County, CO

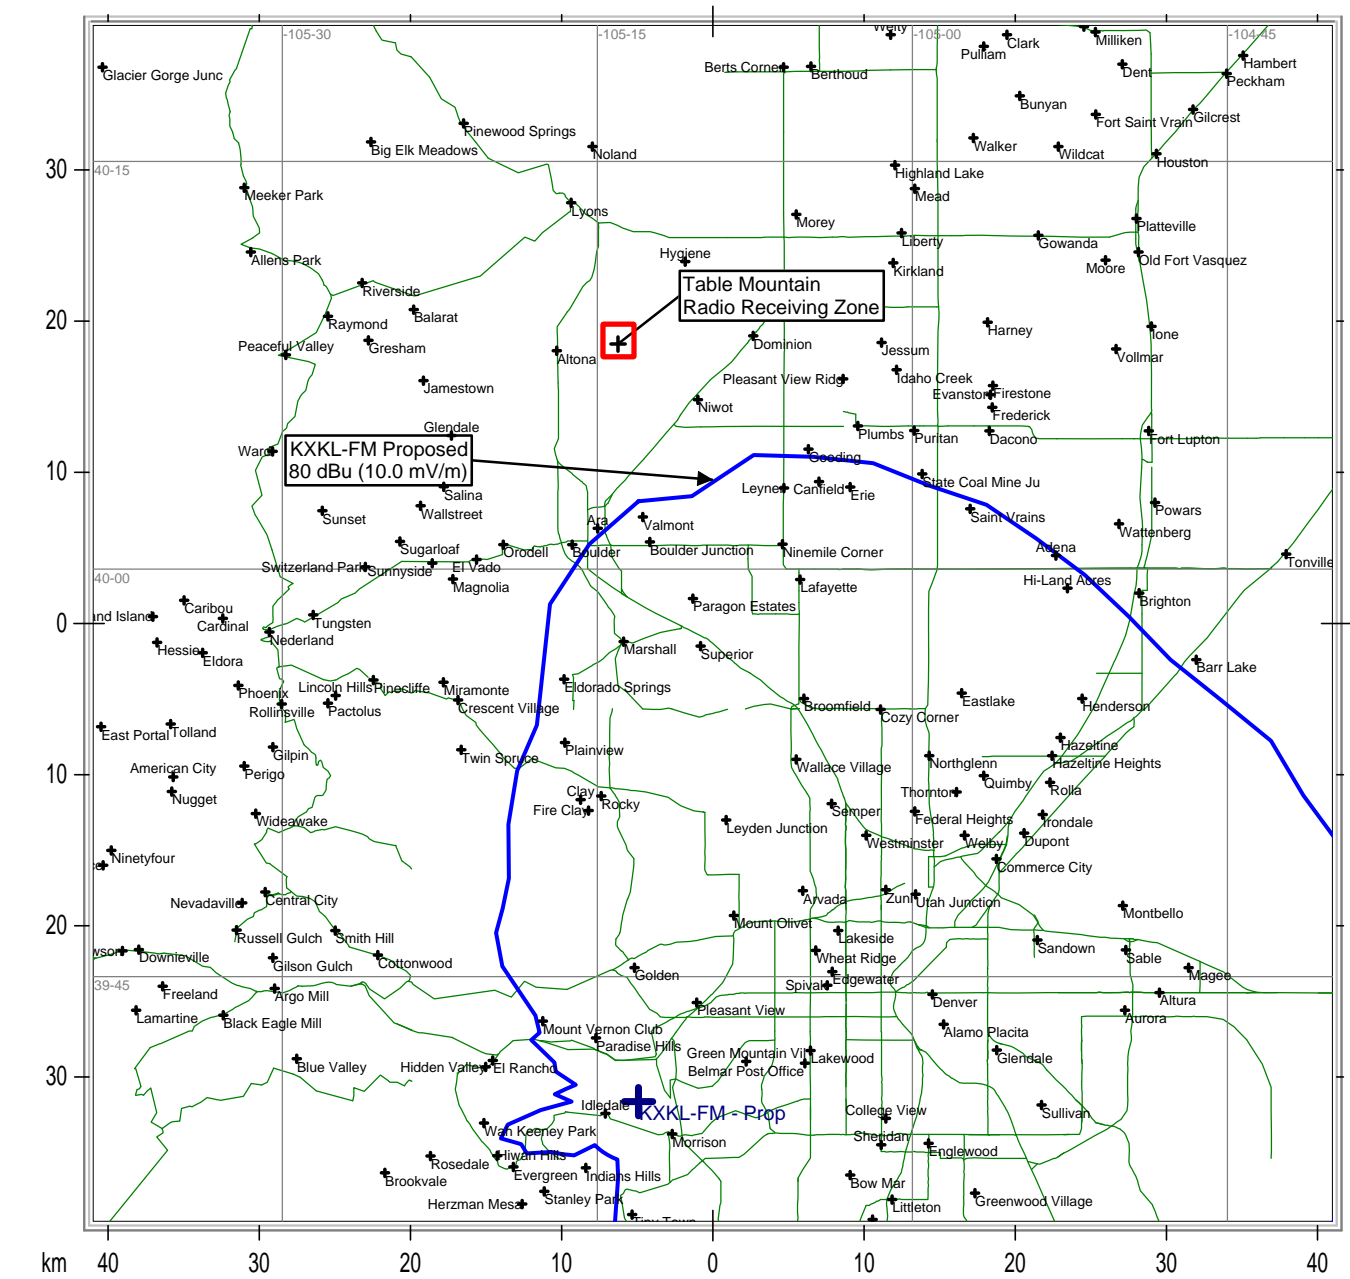

The proposed site is 49.4km from the nearest point of the Table Mountain Radio Receiving Zone (“TMRRZ”) located in Boulder County, CO.

Federal Communications Commission Rule 47 C.F.R §73.1030(b) requires that the field strength at the TMRRZ from the proposed operation not exceed 10 mV/m (80 dBu). The attached Figure 1 of this Exhibit is a plot of the KXKL-FM antenna site, the location of the TMRRZ and the proposed KXKL-FM 80 dBu field strength contour. This plot shows that the proposed field strength at the TMRRZ will be well below the 80 dBu permitted. The applicant believes this proposed operation is in full compliance with 47 C.F.R §73.1030(b).
