

Non-Preclusion Study

Channel 243
Oklahoma City, OK
June 2013

This Non-Preclusion Study ("NPS") is being conducted for Fred R. and Evelyn K. Morton, Permittee for Channel 243D, Oklahoma City, OK, Facility ID Number 139283. The applicant finds it necessary to modify Construction Permit BPFT-20130306ABA and use a new multi-station antenna which is to be installed at the present translator CP site. No site change is proposed. Oklahoma City is a Non-Spectrum Limited market.

With regard to the Local Community Radio Act of 2010 ("LCRA"), an examination was made to determine if the desired translator change would have any effect on the ability to construct a new LPFM in Oklahoma City. The program LPFM6 (December 2012 version) was used in this analysis. Attached is the program setup and condensed results.

The subject translator is on Channel 243. The search results indicate zero LPFM opportunities on this channel as well as adjacent channels two channels above and below. It is therefore our conclusion that the requested minor change of this subject translator, Facility ID 139283, is in compliance with the LCRA and does not impact any future LPFM facilities.

This Non-Preclusion Study is sworn to be true and accurate to the knowledge of the undersigned.
