RE: *Low Power Television Application of University of Utah*
Channel 27 Columbia, Utah
File Number BDCCDTT 20061019AAR
Facility ID No.: 167143

Hossein Hashemzadeh,

Carbon County is aware the University of Utah has filed an application for a Station authorization for a new translator license file: *BDCCDTT 20061019AAR Channel 27* to serve Columbia, Utah and Carbon County is currently licensed on K27HU, BLTT-20060320AGS serving Price, UT.

Because of several issues, including Mountain terrain shielding, Carbon County does not expect the proposed application *BDCCDTT 20061019AAR CH 27* to interfere with K27HU, BLTT-20060320AGS serving Price, UT. channel 27 serving Price, Utah and is willing to accept any interference that can't be resolved by the two parties.

We therefore, have no objection, to the granting of the application from the University of Utah for a construction permit on file number *BDCCDTT 20061019AAR Facility ID No.: 167143*. If Interference becomes a problem in the future we will work with the University of Utah to eliminate it.

Respectfully,

Michael Milovich
Carbon County Commissioner
