This amendment also addresses Section III, Item 6, Exhibit 15, as follows:

KUSG(TV), St. George, Utah (Facility ID No. 35822) currently operates as a satellite and 100% repeater of KUTV(TV), Salt Lake City, Utah (Facility ID No. 35823). Accordingly, when this application was originally filed, the proposed assignee, SLC TV Licensee Corp. ("SLC"), requested a waiver of the Commission's main studio rule, 47 C.F.R. § 73.1125, to permit satellite operation of KUSG(TV). Since filing the application, however, SLC has determined that it will develop KUSG(TV) into an independent TV station for the growing, yet underserved, St. George, Utah market. Accordingly, SLC respectfully withdraws its original waiver request and instead asks that the Commission condition grant of this application upon SLC's construction and operation, within 12 months of consummation of the assignment, of a main studio for KUSG(TV). The requested time will allow SLC to construct the main studio facility, procure the necessary equipment, staff the station, acquire programming, negotiate carriage agreements, and accomplish the numerous other tasks required to create a new and independent KUSG(TV).
