Dear Sir,

This letter provides information regarding the content of the amendment to FCC application 0000001377. The submitted application had several incorrect transmission system parameters. Specifically, this amendment corrects the facility location and associated ASR, radiation center above ground, ERP, antenna orientation, and emission mask. The new parameters have been entered in the appropriate sections.

Sincerely,

A handwritten signature in black ink that reads "Greg Best, PE". The signature is written in a cursive style with a horizontal line through the middle of the letters.

President
