

**Environmental Effect Exhibit**  
**Minor Modification of BDCCDTL-20110901AAE**

An environmental assessment is not required for this modification because this modification being filed simply to specify a different tower located within the same tower farm (approximately 475 feet from the tower specified in the initial permit application), and to update the proposed antenna model and make. These changes will result in no significant environmental impact.

Applicant also certifies that it, in coordination with other users of the site, will reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from RF exposure in excess of FCC guidelines.
