

HOLSTON VALLEY BROADCASTING CORP.  
FCC FORM 2100 – MAY, 2015  
LICENSE CERTIFICATIONS EXHIBIT

This is a license to cover a construction permit for a digital companion channel. The FCC Form 2100 computer program requests information about the channel WAPW-CA is rebroadcasting. In order to be able to file this application, we included information about co-owned WAPK-CD. However, WAPW-CA is a Class A station in its own right; we will be filing a second application to move the Class A designation from the current Channel 31 operation to Channel 21.
