

KBJR-TV, Superior, Wisconsin
Facility ID No. 33658
Application for Modification of License

General Attachment: Antenna and Technical Data

The purpose of this modification of license is to specify a new antenna manufacturer and model number. Due to a technical filing issue with the FCC's Licensing and Management System, the correct information could not be uploaded to the Form 2100. Accordingly, per the instructions of FCC staff, we are providing the requisite responses to this section of application of modification of license application as an attachment to the application.

The information is as follows:

Antenna Type: Non-directional
Antenna Manufacturer: Dielectric
Antenna Model: TUA-04-10/40-01
Rotation: Not Applicable
Electrical Beam Tilt: 0.8
Mechanical Beam Tilt: Not Applicable
Toward Azimuth: Not Applicable
Polarization: Horizontal

TV and DTS: Elevation Pattern: Does the proposed antenna elevation radiation patterns that vary with azimuth for reasons other than the use of mechanical beam tilt? NO

There are no changes in the actual operation of the station. The other technical parameters continue to be accurate.
