Dear Sir,

The following information is provided to avoid any confusion regarding the status of the licensed facility for KBNS-CD.

The licensed facility described in FCC file BLDTL20100315ADB indicates the correct technical parameters. However, the license that indicates the correct Class A status for the licensee is FCC file BLDTA20110926AID. The license record for BLDTL20100325ADB is incorporated by reference in the BLDTA20110926AID license record. There is no change in the transmission components and technical parameters between the two records.

Sincerely,

A handwritten signature in black ink that reads "Greg Best, PE". The signature is written in a cursive style with a horizontal line through the "t" in "Best".
