

WHKY-TV
Schedule 381

Exhibit

There is a discrepancy between the license (BLCDT-20110927ACZ) and the technical data in both the CDBS and LMS systems for the DTS facilities for WHKY-TV. Specifically, the license correctly lists both DTS locations as well as the DTS reference coordinates which govern distance in interference calculations. The CDBS engineering information, however, only lists WHKY-TV's DTS 2 site information. It includes no information for the DTS 1 site or the DTS reference coordinates. The LMS system does list both DTS sites, but does not include the reference coordinates.
