

WPCT DT CH 11 DTV PANAMA CITY BEACH, FLORIDA
REASON FOR STA FILING
JULY 07, 2015

This application is being filed for the sole purpose of correcting the coordinates of the existing tower. Co-owned facility WPFN-CA is currently licensed to operate from the same tower. Towair analysis noted that the existing structure passes the 25:1 slope to naval surface warfare center heliport located 2.47 kilometers away.

By inadvertent oversight an application for CP to correct the coordinates was not filed previously.
