Character Issues Raised In Connection With Pending Broadcast Applications

On November 13, 2008, Venture Technologies Group, LLC ("VTG") filed an informal objection against obidia Porras' application (File No. BLTVL-20081027ABB) for license to cover a construction permit for modified facilities of Station KCIO-LP, Victorville, CA (Facility ID 11529). VTG'S pleading contained allegations of false certification and misrepresentation against Mrs. Porras. Mrs. Porras responded to the allegations in a November 19, 2008 letter from her communications counsel to Hossein Hashemzadeh, then Associate Chief (Now Deputy Chief) of the Video Division. The matter remains pending as of the filing of this application.

On May 22, 2009, VTG filed a pleading styled "Petition to Deny and Petition for Reconsideration" concerning Obidia Porras' application (File No. BLTVL-20090428AAP) for license to cover construction permit for further modified facilities of KCIO-LP and her construction permit (File No. BPTVL-20090415ABR) for further modification of KCIO-LP. VTG again alleged misrepresentation and false certification. Mrs. Porras responded in an Opposition filed on June 17, 2009, and the matter remains pending as of the filing of this application.
