

**Reinstatement and Tolling Request**  
KIIT-CA, North Platte, NE (FID 49285)  
File No. -0000001838

Gray Television Licensee, LLC (“Gray”), licensee of the above referenced station, by its counsel, hereby requests, pursuant to Section 73.3598 of the Commission’s Rules, reinstatement *nunc pro tunc* of its digital flash cut construction permit specified above (“Digital CP”) and tolling of the Digital CP’s expiration date. The Digital CP was granted on June 22, 2015 with a three-year term. See Attachment A. Subsequently, on August 28, 2015 the expiration date of the Digital CP was changed to September 1, 2015. See Attachment B. However, Gray did not receive notice of this change.

KIIT-CA is a Class A station and as such was required to cease analog operations by September 1, 2015, which it did. KIIT-CA was unable to place its digital facility in operation by September 1 because of equipment delays. However, KIIT-CA now has installed all needed equipment and is currently conducting testing of its digital signal with the expectation of beginning regular digital broadcasts the week of September 21.

In reliance on the original expiration date of the Digital CP and unaware of the subsequent change to the expiration date, Gray did not file a request for additional time to complete construction of the facilities specified in its Digital CP. Gray respectfully submits that given the unique facts of this case, it would be inequitable to not grant the requested relief.<sup>1</sup>

Gray therefore respectfully requests reinstatement of its Digital CP *nunc pro tunc* and tolling of the expiration date until September 30, 2015 to allow it to commence operations and file a license to cover.

---

<sup>1</sup> See 47 C.F.R. §1.925(b)(3)(ii).

**Waivers/Special Conditions**

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.
