In re: Low Power Television Application of:  
DTV America Corporation  
Channel 38, Jonesboro, AR.  
File no.: 0000005097  
Facility Id No.: 188804

Dear Applicant:

On November 2, 2015, the licensee was sent a 30 day deficiency letter outlining the interference issue as shown below:

The proposal is predicted to cause interference to the following facilities:

1. WPYM-LD – West Helena, AR. – BPDTL-20130201BBJ at 2.9899%

We received your amendment lowering the ERP from 15 kW to 10 kW in an attempt to eliminate the above interference issue; however, the study using the 10 kW power shows continued interference to the above mentioned station and application at 2.8861%, therefore, since the amendment did not resolve the interference issue the above application LMS-0000005097 IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh  
Deputy Chief  
Video Division  
Media Bureau
