B. W. St. Clair

**Engineering Statement
KHXL FI 28985**

Environmental Considerations:

This application is to seek Digital Companion channel 31 and move to a tower southward; the move is less than 30 miles, has significant contour overlap with the underlying license and serves the same community. The new tower is ASR1031308 at Montgomery, TX. The antenna will be installed on an existing tower and the equipment will be in an existing building. No construction is required.

NIER from the within application is less than 5% of the limit for its service. Interference studies run demonstrate compliance with all applicable portions of §74.793.

Respectfully submitted,

B. W. St. Clair
