

## Annual DTV Ancillary/Supplementary Services Report for WYBE-CD

WYBE-CD is a very small Class A station; it is newly digital, having converted from analog only just earlier this year. We provide no ancillary services, as defined and described in the FCC rules, for fee or without compensation. Hence, I was unaware that this filing requirement was applicable to a station such as ours that provides no such services by December 1, 2015. This is the first time this DTV report has been due for us.

I have filed the Form 2100 immediately upon receipt of notification from the FCC and a request to file this report by January 1, 2016.

WYBE-CD always wishes to be in full compliance with FCC rules and will file this report by the December 1 deadline in the future.

Sincerely,

Mark Evans  
President, Multimedia Network of North Carolina, Inc. (licensee)
