**KXAS-TV, Fort Worth, Texas (FID No. 49330)**  
**File No.: 10870**  
**Resumption of Operations**

On May 23, 2016, Reduced Power Notifications were filed on behalf of Stations KXAS-TV and KXTX-TV (the "Stations"), File Nos. 10870 and 10872, respectively, to advise the Commission of reduced power operation during installation of a new antenna. Effective Sunday, May 29, 2016, the Stations resumed operations at 80% of authorized power. The relentless rain in Texas during May and June has caused a delay in completing the antenna work. Assuming the weather improves, the Stations should be restored to 100% power within the next several weeks.
