

### **Amendment 1<sup>st</sup> Quarter 2016 Children's Programming Report**

Due to technical difficulties relating to the installation of new equipment at the beginning of 2016, licensee's on-air notifications to publicize the existence and location of the station's children's television programming reports (FCC Form 398) were not aired during first quarter 2016. Throughout the quarter, licensee publicized the existence and location of the station's children's television programming reports on its website. Licensee has corrected the error and has resumed its practice of regular on-air notifications to publicize the existence and location of the Form 398s and continues to provide that information on its website.
