

Purpose of Amendment

Subsequent to filing the initial STA application on June 2, 2016, it has been determined that station WGDO-LD channel 39 Washington, NC filed an application on May 31, 2016 to move its facility and that their application was granted on June 9, 2016. In that the new WGDO-LD location is significantly closer to the proposed STA, 2.7% predicted new interference would be caused to WGDO-LD.

The purpose of this amendment is to lower the power of the proposed STA in order to reduce the predicted new interference to an acceptable level.
