

REQUEST FOR SPECIAL TEMPORARY AUTHORITY TO OPERATE WITH REDUCED POWER

By this application, KTVI License, LLC, is requesting FCC special temporary authority to operate at a reduced power for the reasons stated herein. On or about May 18, 2016, one of the three power supplies to the transmitter malfunctioned. In spite of repeated repair efforts, the Station was unable to restore power, and is now in the process of ordering a replacement unit from NWL, the manufacturer, which is expected to take thirty to sixty days. Until such repairs are complete, KTVI will be operating at approximately sixty percent (60%) of its authorized 1000 kW ERP. Once the repairs are complete, KTVI will notify the FCC that it has returned to operating at its fully authorized ERP.
