Dear Applicant:

On July 7, 2016, the licensee was sent a 30 day deficiency letter outlining the following interference issue:

The proposal is predicted to cause interference to the following facilities:

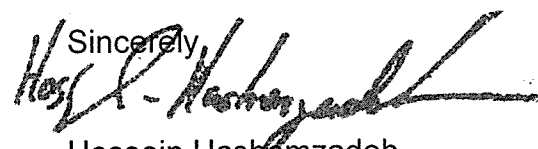

1. New – Wewahitchka, FL. – BNPDTL-20090825BQY at 8.8%

You were given 30 days from the date of that letter to file electronically an amendment that will resolve the above deficiency, or we will dismiss your application.

On July 12, 2016, we received your amendment for the purpose of resolving the above interference deficiency; however, the current interference study taking into account the amended specifications shows continued predicted interference as follows:

1. New – Wewahitchka, FL. – BNPDTL-20090825BQY at 3.0%

As a result, of the amendment not resolving the above interference deficiency, the above referenced proposal LMS-0000011206 IS HEREBY DISMISSED.

Sincerely,
