

Notice of Suspension of Operations:

On Tuesday, October 18, 2016, WOST resumed broadcasting at full power at 9:40 AM and filed a Resumption of Operations with the FCC (LMS App. No. 0000016303). The station then went off the air on the evening of October 18. Station engineers have determined that one of the station's power amplifiers was damaged during a lightning strike and has now been sent to be repaired.

The licensee has taken WOST off the air while awaiting a repaired power amplifier, and will file a Request for Special Temporary Authority to Remain Silent if the repairs will take over 30 days.
