EXHIBIT TO ACCOMPANY AMENDMENT OF APPLICATION

KDUG-LP  
HEMET, CA  
LOUIS MARTINEZ FAMILY GROUP, LLC

1. MINOR AMENDMENT CHANGES ROTATION OF ANTENNA ONLY.
2. CHANGE OF ANTENNA TO PR-450CU ROTATED 190° T.
3. ANTENNA SERVICE CONTOUR ENJOYS SIGNIFICANT OVERLAP BETWEEN EXISTING AND PROPOSED.
4. NIER IS LESS THAN 5% OF THAT FOR ITS SERVICE; NO EA REQUIRED.
5. APPLICATION IS COMPLIANT WITH APPLICABLE PORTIONS OF §74.793.

TECHNICAL EXHIBIT: The application amends BDFCDTL-20130813ACA; revises the antenna to a PR-450CU rotated to 160° and makes no other technical changes.

Registration of the antenna structure is not required; passes TOWAIR as passes slope to French Riverside Valley airport, Murrietta, CA. NIER is less than 5% of the limit for its service.

It is requested that this amendment be considered in place of the original flashcut application and to replace the previous version of the within application. The Mexican Channel 21 TV stations at Tijuana and at Rosarito Beach, BN are no longer in service and this application should no longer require coordination. An investigation was conducted for a previous channel 36 application filed which clearly demonstrated the absence of the Mexican channel 21 stations in BN or in the vicinity of the border with the US.
