

Engineering Statement

Nov 14, 2016

Ch 14 Duluth, MN FI 181617

EICB-TV East, LLC

TECH EXHIBIT: The within application is removed from an MX situation with BNPDTL-20090825AQV by making the following modifications: Moving to tower ASR #1036619 at a height above mean sea level of 419.7 m, 60m above ground. Antenna is SCALA SL-8, FCC # 23503 treated as nondirectional. ERP reduced from 5 kW to 1.5 kw. Finally, interference from BNPDTL-20090825QAQV only will be accepted. NIER from the within application is less than 5% of the limit for its service; OET69 study shows compliance with all pertinent portions of 47 CFR 74.793. No major construction is anticipated.

Respectfully submitted,
