

Engineering Statement

Nov 14, 2016

Ch 14 Big Spring, TX FI 184055

EICB-TV East, LLC

TECHNICAL EXHIBIT: To clear an MX situation at this site, applicant makes the following revisions in the application:

1. The coordinates were in error on the first application; they are corrected to match ASR 1040261 as stated in NAD83.
2. The antenna was claimed nondirectional, the same antenna is used but is now aimed directionally at 50° True.
3. The ERP was 15 kW and is now 10 kW.
4. The applicant expresses willingness to accept incoming interference from the following: K51LJ-D, MIDLAND, TX, BDISDTL-20110909ABG and from K14PK-D, Hobbs, NM, BNPDL-20101012AFA as presently permitted as of the date of the within filing.

Additionally, we remind the commission that NIER from the within application is less than 5% of its allowable maximum. OET69 studies reveal the within application's compliance with applicable portions of §74.793..

Respectfully submitted,
Byron W. St. Clair
