

EXPLANATION OF AMENDMENT

This amended Form 398 Children's Programming Report is being submitted to rectify an error in the reporting of core programming during the third quarter of 2016.

Due to a technical error, from September 10, 2016 through September 24, 2016, the following program, designed specifically for children and reported as core programming, aired on the LAFF network without the required E/I symbol:

- *Reluctantly Healthy*

To address concerns regarding compliance with FCC requirements, in addition to its regularly scheduled core children's programming, during the fourth quarter LAFF and the station will re-broadcast the core programming originally aired without the E/I symbol. The additional programming will air for three consecutive weeks immediately following the regularly scheduled children's programming.
