In re: Low Power Television Application of:  
Mako Communications, LLC  
Channel 18, Seattle, WA.  
Call Sign: KUSE-LD  
File no.: BDISDTL-20120130ALF  
Facility Id No.: 168057

Dear Applicant:

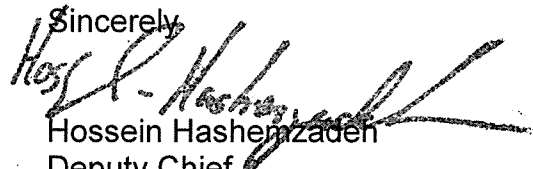

On April 27, 2016, the licensee as addressed above was sent a 30 day deficiency letter for the following issue:

The preliminary engineering review reveals that your proposed facility displacement justification does not comply with the Commission's displacement application rules.

You were given an opportunity to electronically amend the application within 30 days from the date of that letter, to submit an engineering showing demonstrating that your station is causing or receiving actual or predicted interference from a full power DTV station. Failure to do so may result in the dismissal of your application.

Our records show that as of November 4, 2016, no amendment has been filed to resolve the above deficiency; therefore, the above referenced application BDISDTL-20120130ALF IS HEREBY DISMISSED.

Sincerely,

  
Hossein Hashemzadeh  
Deputy Chief  
Video Division  
Media Bureau
