Re: Channel 50, CLARKRANGE, TN
BDISDTL-20120223AEC, WWWB-LD
Facility ID: 131204

Dear Applicant:

On November 3, 2016, the licensee as addressed above was sent a 30 day letter for the following deficiency:

Our preliminary engineering review revealed that your proposed facility displacement justification does not comply with the Commission's displacement application rules.

In order to prevent the processing of unnecessary displacement applications, you are hereby required to amend your application, within 30 days from the date of this letter, to submit an engineering showing demonstrating that your station is causing or receiving actual or predicted interference from a full power DTV station. Failure to do so will result in the dismissal of your application.

Our records show that as of December 6, 2016, no amendment has been filed to resolve the above issue; therefore, the above referenced application BDISDTL-20120223AEC IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh
Deputy Chief
