

Station Venture Operations, LP
KNSD(TV), San Diego, California (FID No. 35277)
Notice of Reduced Power Operations

Station Venture Operations, LP, licensee of Television Broadcast Station KNSD(TV), San Diego, California (the "Station"), hereby notifies the Commission that the Station is currently operating at an effective radiated power between 25 and 30 percent of its licensed power due to an antenna failure that occurred on December 25, 2016.

The replacement part required to repair the antenna has been ordered and is expected to ship on Monday, January 9, 2017. We are coordinating with the vendor to schedule an installation date based on crew availability and weather conditions.

We will either notify the Commission when full power operations have been restored or file a request for Special Temporary Authority by January 24, 2017.
