

Notice of Resumption of Normal Operations

Station: WMFP, Facility ID # 41436, Lawrence, MA

January 5, 2016

As previously reported to the Commission in a Reduced Power Notification, File # 0000019246, WMFP reduced operating power to 72% of its authorized level on December 19, 2016 due to transmitter instability at higher power levels.

Corrective actions taken on December 23, 2016 allowed the station to increase power to approximately 95% of licensed level. Additional corrective actions were completed January 3, 2017, allowing WMFP to return to 100% of licensed power level at approximately 2:00 pm local time.
