

Amendment to Application

Cranston Acquisition is filing this amendment to the pending application for license for KMCC (File No. BLCDT-20131118BCD) to correct certain information regarding DTS Tower Site Number 2. Specifically, Cranston Acquisition is amending the following information:

1. Deleting the Antenna Structure Registration Number (1011437). DTS Tower Site Number 2 is not required to be registered.
2. Correcting the tower coordinates for the latitude from 35-56-44.7 to “**35-56-45.6**”.
3. Correct the overall structure height from 77.4 meters to “**36.58**” meters.

Cranston Acquisition would have inputted these changes directly as an amendment but this is not possible with the FCC’s electronic Licensing and Management System. It is respectfully requested the Commission staff accept this submission and input the corrected information.
