

Environmental Statement
K11WP
February 21, 2017

The applicant proposes to operate on channel 11 at 4 watts at a height of 6 meters above the ground. This proposal is well within the Commission's guidelines for both controlled and uncontrolled access. Nevertheless, the applicant will ensure that placards warning of radiation hazard are posted in and around the site at all times and that station staff are trained how to cease operation in the event that anyone climbs the tower. Furthermore, the site is completely fenced.
