RE: KHMF-CA

Dear Mr. Morton:

Since the interference issue with KHMF-CA and the Bentonville Fire Department has been unable to be resolved, I would like to request that you seriously consider moving your facility from Arklahoma's Farm II tower, ASR #1038004. We are sorry for any inconvenience or issues that this causes, but in the interest of public safety, we have no alternative.

Thank you very much for cooperating with us and the Fire Department on this matter.

I have towers where we can relocate KHMF-CA (see list below). If none of these are suitable, please contact me and I will help you locate one that is.

Once you have decided on a tower, please contact me and I will prepare the necessary lease paperwork.

Sincerely,

Chris Daniel, SBE CBT, CRO  
Site Manager
