

**Request for Special Temporary Authority**  
**Station KRXI-TV**  
**Fac. ID 48360**  
**March 2017**

Pursuant to Sections 73.1560(d) and 73.1635(a) of the Commission's rules, station KRXI-TV notifies the Commission that it has been operating at reduced power, and seeks special temporary authority to operate at that power. The reduced power has been necessitated by ice damage to the station's transmission heat exchangers and the station is currently operating at 50.0% of its authorized power with 475 kW ERP.

The station is hereby requesting special temporary authority to continue to operate at reduced power with an ERP of 475 kW for a period of 180 days. KRXI-TV currently anticipates that it will receive the necessary replacement equipment and install it within 90 days.

Grant of this STA request will further the public interest by allowing the station to continue to provide power-limited broadcast service to the public while it remedies its equipment failure.
