

**Request for Silent STA**

By letter dated May 3, 2017, Living Faith Ministries, Inc. (“Living Faith”), licensee of WAGV(TV), Harlan, Kentucky (Facility ID. No. 37809), notified the FCC that the station’s transmitter had been damaged due to severe weather on May 1, 2017, and as a result the station was silent.

Prior to the damage sustained on May 1, 2017, the station was operating at reduced power, as authorized in LMS File No. 0000024322. For the reasons described in the reduced-power STA request, access to the site to make repairs is limited.

Repairs to the damaged transmitter that would allow it to return to its authorized power will take longer than anticipated, causing the station to remain silent for a period beyond 30 days. Living Faith respectfully requests grant of silent STA for a period of six months so that the licensee may repair or replace the damaged transmitter.
