

Environmental Statement

This proposal is to replace the existing top mount antenna with a new antenna with no increase in overall height. The facility is currently operating as a television transmitter site. No excavation or changes in the site are anticipated. Consequently, no adverse impacts are anticipated with respect to environmental considerations.

RF Exposure Statement

The facility proposed in this application is essentially identical to the replicated post Incentive Auction facility described in the repacking notification sent to the station. In that the facility replicates the currently authorized facility that was previously determined to meet RF exposure requirements the proposed facility is also expected to comply with the requirements. All other current safeguards related to the site with regard to both workers and the general public will remain in place.
