

# Antenna Location Data<sup>1</sup>

## Antenna Structure Registration

Do you have an FCC Antenna Structure Registration (ASR) Number?

Yes

ASR Number: 1011350

---

<sup>1</sup> The FCC Form 2100 has a flaw in the logic that prevents the coordinate seconds from pre-filling properly. Therefore, the ASR Number question was answered 'No' for the form in order to allow for the correct structure information to be filled into the form. The proposed structure does have an ASR Number as indicated above.
