

**PURPOSE OF WCWJ 1<sup>st</sup> PRIORITY FILING WINDOW FILING**

Graham Media Group (GMG), licensee of the WCWJ-DT Jacksonville, FL facility, timely filed an “Unable to Construct” waiver which was granted by the FCC. Accordingly, pursuant to FCC rules, the WCWJ-DT Channel 20 post-auction facility is eligible to file in the First Priority Filing Window. In order for the WCWJ-DT Channel 18 facility to buildout its post transition facility, it will need to change site locations from the licensed WCWJ tower to the WJXT tower which owned by GMG. The WJXT site is located only 0.58 miles from the WCWJ site. Accordingly, this application requests the following changes in order to buildout its post-transition facility and to maximize coverage:

- Change site locations from WCWJ tower to WJXT tower
- Change azimuth pattern from trilobe to cardioid to share antennas with WJXT
- Increase ERP to 1,000 kW

GMG met with the FCC to discuss these changes and the plan that was presented to the FCC is included as an attachment in this application so that additional details can be accessed if needed.

**CERTIFICATION**

This technical statement was prepared by William T. Godfrey, Jr., Engineering Associate with the firm Kessler and Gehman Associates, Inc. having offices in Gainesville, Florida, and has been working with the firm in the field of radio and television broadcast consulting since 1998. Mr. Godfrey was a graduate from the University of North Florida and a Distinguished Military Graduate from the University of Florida. As a Professional in the field of Telecommunications he states under penalty of perjury that the information contained in this report is true and correct to the best of his knowledge and belief.
