

**Reason for Suspension of Operations and
Request for Waiver with Respect to Viewer Notification Requirements**

Spanish Broadcasting System Holdings Company, Inc. (“*SBSHC*”), the licensee of relinquished Digital TV Station WTCV, Channel 32, San Juan, Puerto Rico (FIN 28954) (“*WTCV*”), hereby notifies the Commission of suspension of operations and requests a waiver with respect to the notification requirements of Section 73.3700(c)(1) of the Commission’s rules.

SBSHC was operating WTCV on its pre-auction channel (Channel 32) and was in the process of relocating to Channel 21 pursuant to a Shared Television Broadcast Station Construction Permit (FCC File No. 0000029187). On September 7, 2017, WTCV’s pre-auction facilities, including the tower on which the WTCV antenna was located, were destroyed by Hurricane Irma. WTCV is now broadcasting exclusively on its post-auction shared facilities and is filing its license to cover application contemporaneously herewith. The pre-auction facilities will not be reconstructed; accordingly, SBSHC will be unable to complete the notification requirements. SBSHC respectfully requests a waiver of such requirements.
