

Statement Regarding Technical Parameters

Applicant is unable to modify certain technical parameters that are automatically entered into this application by the Commission's electronic filing system and cannot be altered. At the direction of Commission staff, Applicant is filing this application and will work with the Commission subsequent to filing to ensure that the application is processed to reflect the correct technical parameters. For the avoidance of doubt, Applicant requests authority to operate its station with the following parameters, which differ from the automatically entered information reflected in the form as initially filed:

Channel:	48
Community of License:	Bayamon, PR
