Legal STA Request for Channel 20 Operations
K38LQ-D, Roseburg, OR (Facility ID No. 183755)
California Oregon Broadcasting, Inc.

K38LQ-D Request for STA Operations on Channel 20

This request for Special Temporary Authority is being filed contemporaneously with a 120-day letter displacement application pursuant to the Commission's Public Notice in *Incentive Auction Task Force and Media Bureau Set Forth Tools Available to LPTV/Translator Stations Displaced Prior to the Special Displacement Window*, Public Notice, 32 FCC Rcd 4943 (MB 2017).

As described more thoroughly in the applicant's displacement application in **LMS File No. 0000033809,** because the 600 MHz band licensee has advised that its operations will commence on October 31, 2017 (see 120-day letter attached in the Technical Exhibit), the applicant seeks authority to transfer its channel 38 television translator operations to channel 20 as soon as possible and in advance of the Special Displacement Window for displaced operating low power television and television translator facilities.

Should additional technical information be required, **LMS File No. 0000033809** and/or the contacts identified in this STA request are available to the Commission staff as needed.
