Re: Antenna and Interference Agreement

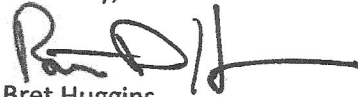

To: Dan Peek,

This will summarize the agreement between Univision Local Media, Inc. ("Univision"), the parent company of the licensee of KWEX-DT, San Antonio, TX, and Three Angels Broadcast Network, Inc. ("TABN"), the licensee of K27LF-D, San Antonio, TX:

- Following approval by the Federal Communications Commission ("FCC"), Univision will relocate the KWEX-DT antenna to the Univision Radio (KROM) tower (ASR 1206963) on which K27LF-D is located, and operate on Channel 24.
- Prior to commencing operations on Channel 24, Univision will purchase and install for K27LF-D, at its own expense, an antenna for K27LF-D to replicate the pattern on KWEX-DT or combine with KWEX-DT antenna.
- Univision will prepare an application for FCC approval for K27LF-D to implement the modified facility, which TABN will review and approve before filing. Univision will pay the filing fee for such application.
- TABN agrees to accept 2% interference from KWEX-DT to its modified contour, which the parties anticipate will receive 5% - 18% improvement in coverage net of the 2% interference.

Please indicate your acceptance of this agreement by signing and dating this letter below.

Sincerely,

Bret Huggins
Director of Local Media Operations
and Engineering

Agreed and accepted this 28 day of September, 2017

D/R. OF BROADCASTING
