FCC Media Bureau

The Board of Trustees Southern Illinois University (licensee of WUSI-TV) has received notice that the licensee of KETC has filed a modification to construction permit application BLANK0000034609 within the incentive auction 2nd priority window for a proposed facility for channel 23. To avoid becoming a mutually exclusive application with the proposed KETC facility, the licensee of WUSI chooses to address this potential issue in advance. The CP Mod application BLANK0000034609 filed by the licensee of KETC, is predicted to cause 0.7 % interference to the WUSI construction permit application to which this letter is attached. By way of this letter, the licensee of WUSI acknowledges that it will accept the 0.7 % predicted interference caused by the proposed facilities of the KETC application BLANK0000034609 or amendment thereof.

If you have any questions concerning this acknowledgement, you are welcome to contact me at the phone number listed.

Respectfully,

A handwritten signature in black ink that reads "Randy J. Dunn". The signature is written in a cursive, flowing style.

Randy J. Dunn
